Instructor Led (Onsite/Online) Course

Cisco CCIE SEC - Cisco CCIE Security Lab Exam

Orhan Ergun LLC, Learning Course Code	CISCO-CCIE-SEC
Exam Code	v5 400-251
Course Length	5 Days
Course Cost Per Student	\$1,750

5 days workshop with a full Lab scenario for each day. Each day will start by reviewing the Full Lab scenario tasks for the day and preparation strategy to attack the configuration Lab. The LAB scenarios cover all technologies and protocols to help lab exam candidates prepare for the Lab exam.

Instructor Led (Onsite/Online) Course

Cisco CCDE Instructor Led - Cisco Certified Design Expert

Orhan Ergun LLC, Learning Course Code	CISCO-CCDE
Exam Code	352-001
Course Length	5 Days
Course Cost Per Student	\$3,995

Onsite 5 days 8 hours daily covering: network design principles and all the best practices, how real life networks look like and how big companies design their network, techniques that improve your strategic design thinking, many practical network design scenarios and many complementary study resources.

Online 11 days 4 hours daily.

Instructor Led (Online) Course**Service Provider Workshop**

Orhan Ergun LLC, Learning Course Code	SP-WRKSHP
Exam Code	Orhan Ergun LLC
Course Length	2 Days
Course Cost Per Student	\$495
2 days 5 hours daily ,different types of network operators, Relations between them will be explained in detailed.	

Instructor Led (Online) Course**CCDE Practical Scenarios Workshop**

Orhan Ergun LLC, Learning Course Code	CCDE-PS-WRKSHP
Exam Code	Orhan Ergun LLC
Course Length	2 Days
Course Cost Per Student	\$800
2 days 7 hours, 2 CCDE Practical Scenarios each day, total 4 Practical Scenarios from different business types.

Network Design Tools and the Best Practices Workshop

Orhan Ergun LLC, Learning Course Code	OE-NDT-WRKSHP-SPC
Exam Code	Orhan Ergun LLC
Course Length	4+ hours
Course Cost Per Student	\$39
Course cover all network design tools , things you need to consider while designing any type of Computer network. Course contains detail information about Scalability, Highly Available , Flexible network design which have to be considered in any medium to large scale Enterprise or Service Provider network.	

Self-Paced Course**Layer 2 Network Design Workshop**

Orhan Ergun LLC, Learning Course Code	OE-L2ND-WRKSH-SPC
Exam Code	Orhan Ergun LLC
Course Length	4+ hours
Course Cost Per Student	\$39

Course contains detail information about Layer 2 network design, commonly used protocols in the Local Area Network , Campus Network and the Datacenter network. This is not only a video course but also provides detail comparison with other protocols , you will take Layer 2 networking quiz at the end to verify your learning

Self-Paced Course**OSPF Workshop**

Orhan Ergun LLC, Learning Course Code	OE-OSPF-WRKSH-SPC
Exam Code	Orhan Ergun LLC
Course Length	5+ Hours
Course Cost Per Student	\$39

Course contains detail information about OSPF network design. This is not only a video course but also provides detail comparison with other protocols , you will take OSPF quiz at the end to verify your learning

Self-Paced Course**BGP Workshop**

Orhan Ergun LLC, Learning Course Code	OE-BGP-WRKSH-SPC
Exam Code	Orhan Ergun LLC
Course Length	6+ Hours
Course Cost Per Student	\$49

Course contains detail information about OSPF network design. This is not only a video course but also provides detail comparison with other protocols , you will take OSPF quiz at the end to verify your learning
